

Western Australian Statement of Student Achievement (WASSA)

The WASSA is issued to each student at the completion of Year 12. The WASSA lists all courses and programmes that a student has completed, and the grades and marks achieved. The WASSA formally records, as relevant:

- achievement of WACE requirements
- achievement of the literacy (reading and writing) standard
- achievement of the numeracy standard
- achievement of any exhibitions and awards
- school grades, school marks and combined scores in ATAR courses
- school grades and school marks in General and Foundation courses
- completed Preliminary units
- completed VET industry specific courses
- successfully completed VET qualifications and VET units of competency
- completed endorsed programmes
- number of community service hours undertaken (if reported by the school)

Western Australian Certificate of Education (WACE)

The WACE is awarded by the School Curriculum and Standards Authority (the Authority) when students successfully meet the WACE requirements. Achievement of the WACE acknowledges that at the end of compulsory schooling, students have achieved or exceeded the required minimum standards in an educational programme that has suitable breadth and depth.

To meet the WACE achievement requirements, **students must:**

- demonstrate a minimum standard of literacy and a minimum standard of numeracy
- complete a minimum of 20 units, or equivalents as described below
- complete
 - at least five Year 12 ATAR courses or General courses ****OR**
 - a Certificate II ******* (or higher ********) VET qualification in combination with ATAR, General or Foundation courses.

* In the context of ATAR courses in the WACE, the term 'complete' requires a student to sit the ATAR course examination or has an approved sickness/misadventure application for not sitting the examination in that course. Students who do not sit the ATAR course examination will not have a course mark or grade recorded on their WASSA, nor will they receive an ATAR course report. The pair of units will not contribute to any WACE requirements.

Note: for ATAR courses with practical components, students must complete both the written and practical examinations.

** Foundation courses do not contribute to meeting the WACE achievement requirement with this option. Students taking Foundation courses must complete a Certificate II or higher.

*** In the context of VET in the WACE, the term 'complete' requires that a student has been deemed competent in all units of competency that make up a full qualification.

**** The partial completion of a Certificate III or higher VET qualification may meet this requirement according to predetermined criteria (see the WACE Manual for further information).

WACE requirements 2021 and beyond

1

General requirements

You must:

- demonstrate a minimum standard of literacy (reading and writing) and a minimum standard of numeracy
- complete a minimum of 20 units, or equivalents
- complete
 - at least four Year 12 ATAR courses **OR**
 - at least five Year 12 General courses and/or ATAR courses or equivalent **OR**
 - a Certificate II (or higher) VET qualification in combination with ATAR, General or Foundation courses.

2

Literacy and numeracy standard

For the WACE literacy and numeracy standard you may:

- pre-qualify through achieving Band 8 or higher in the reading, writing and numeracy tests of the Year 9 National Assessment Program – Literacy and Numeracy (NAPLAN), or;
- demonstrate the minimum standard of literacy and numeracy by successfully completing the relevant components of the Online Literacy and Numeracy Assessment (OLNA) in Year 10, 11 or 12.

3

Breadth and depth

You must complete a minimum of 20 units, which may include unit equivalents attained through VET and/or endorsed programs. This requirement must include at least:

- a minimum of ten Year 12 units, or the equivalent
- four units from an English course, post-Year 10, including at least one pair of Year 12 units from an English learning area course
- one pair of Year 12 units from each of List A (arts/languages/social sciences) and List B (mathematics/science/technology) subjects.

4

Achievement standard

You must achieve at least 14 C grades or higher (or equivalents) in Year 11 and Year 12 units, including at least six C grades (or equivalents) in Year 12 units.

5

Unit equivalents

Unit equivalents can be obtained through VET qualifications and/or endorsed programs. The maximum number of unit equivalents available through VET and endorsed programs is four Year 11 units and four Year 12 units with a maximum of four units with endorsed programs – two in Year 11 and two in Year 12.

WACE Courses

There are three types of courses developed by the Authority offered at NLSC.

1. ATAR course units for students who are aiming to enrol in a university course direct from school. These courses will be examined by the Authority and contribute to the achievement of an Australian Tertiary Admission Rank (ATAR).
2. General and Foundation course units for students who are aiming to enter further training or the workforce directly from school. These courses will not be examined by the Authority.
3. VDSS - VET Delivered to Secondary Students courses for students who are aiming to enter further training or the workforce directly from school. VDSS courses have been developed in close consultation with WA Industry Training Councils and include a full, nationally-recognised qualification and mandatory industry-related workplace learning.

There are two types of programmes which can also contribute to the WACE:

1. VET qualifications are for students wishing to participate in nationally recognised training. All VET qualifications require registered training organisation (RTO) delivery, assessment and quality control under the relevant VET regulatory body. A Certificate II or higher is one option for helping to meet the WACE requirements. VET credit transfer can contribute up to eight of the 20 units you need to achieve your WACE. These qualifications contribute to the WACE as unit equivalents.
2. Endorsed programmes provide access to areas of learning not covered by WACE courses or VET programmes and contribute to the WACE as unit equivalents. Endorsed programmes may replace up to two Year 11 course units and two Year 12 course units you need to achieve your WACE. Endorsed programmes can be delivered in a variety of settings by schools, community organisations, universities, training organisations and workplaces. The list of endorsed programmes is available on the Authority website.

It is possible to mix and match these options to provide yourself with the best platform to meet the requirements to achieve your WACE – and for life beyond school.

Multiple pathways to achieve the WACE

The WACE breadth and depth of study requirement previously outlined, specifies that students must complete a minimum of 20 units (10 courses) during Years 11 and 12, including a minimum of 10 Year 12 units or equivalents. Students may use ATAR courses, General courses, VDSS courses, Foundation courses, VET programmes, or endorsed programmes to meet this requirement.

There are limits to the number of VET programmes (not VDSS) and endorsed programmes that may contribute to achievement of the WACE. In summary, students can gain unit equivalence of up to four Year 11 units and four Year 12 units based on completed VET programmes and endorsed programmes but a maximum of four units from endorsed programmes.

Further detailed information can be found at www.scsa.wa.edu.au

Information regarding Year 12 Charges 2022

Course costs within this handbook are indicative and will be confirmed when the Contributions and Charges are approved by the Campus Board. Parents will be advised before the end of Term Four 2021.

There are no maximum charges set by the State Government. Charges the Campus has set for courses are **compulsory** and will depend on the courses chosen. Some specific courses will incur higher costs dependent on such items as text, subject-specific resources, materials, excursions, Certificates and work placement. These charges must be paid in full.

Students offered selected off-site programmes delivered by external providers, such as Certificates will be invoiced by the external providers.

Payment Timeline

- 50% of compulsory payment due by Friday 28 January 2022. Balance of payment due by the end of Term One 2022.
- Periodic Payment plans are available these must be set up by 20 February 2021. Please contact administration to arrange this.
- Regular statements will be posted up until 1 July 2021.
- **Compulsory charges that remain unpaid as at 1 July 2021 could be referred to a debt collection agency unless prior arrangements have been made.**
- The campus is aware that the payment of contributions and charges can be a burden for some families. Part payments and credit card debits are all available to support parents/students experiencing difficulties. Ignoring accounts and reminders is unhelpful to all concerned. To assist families, estimated subject charges are provided to parents/students prior to selection of subjects.
- Offsite Programs: Parents invoiced directly by provider

Payment Options the Campus offers

Cash/EFTPOS/Credit Card at NLSC Administration Building

Direct Deposit to NLSC

Account Name: North Lake Senior Campus
BSB: 066-163
Account Number: 00901441
Reference: Student's Name

Secondary Assistance Scheme

APPLICATIONS CLOSE FRIDAY 8 APRIL 2022

The Western Australian Department of Education provides an allowance to assist eligible families with secondary schooling costs.

ELIGIBILITY CRITERIA:

Parent or Guardian must hold one of the following cards:

- Department of Human Services (Centrelink) Health Care Card
- Department of Human Services (Centrelink) Pensioner Concession Card
- Veterans' Affairs Pensioner Concession Card (Blue Card)

Year 12 Course Selection Handbook 2022

North Lake
Senior
Campus

The allowance is paid up to and including the year the student turns 18-years-of-age.

The allowance consists of two components:

- \$235 Educational Program Allowance paid directly to the school.
- \$115 Clothing Allowance paid directly to the parent/guardian or the school.

For Year 11 and 12 students in receipt of the allowance, the funds will be applied directly to compulsory charges.

Applications are available from Administration. **Late applications will only be accepted in extenuating circumstances** and must be accompanied with a written explanation.

Eligible interstate or overseas students who are enrolled after Term 1 may apply for the allowance. Date of enrolment must be noted on the application.

2022 Year 12 Course Offerings

ENGLISH

English ATAR - ATENG

2022 Course cost \$100 per year

The English ATAR course focuses on developing students' analytical, creative, and critical thinking and communication skills in all language modes, encouraging students to critically engage with texts from their contemporary world, the past, and from Australian and other cultures. Through close study and wide reading, viewing, speaking and listening, students develop the ability to analyse and evaluate the purpose, stylistic qualities and conventions of texts and to enjoy creating imaginative, interpretive, persuasive and analytical responses in a range of written, oral, multimodal and digital forms.

English General - GTENG

2022 Course cost \$90 per year

The English General course focuses on consolidating and refining the skills and knowledge needed by students to become competent, confident and engaged users of English in everyday, community, social, further education, training and workplace contexts. The course is designed to provide students with the skills to succeed in a wide range of post-secondary pathways by developing their language, literacy and literary skills. Students comprehend, analyse, interpret, evaluate and create analytical, imaginative, interpretive and persuasive texts in a range of written, oral, multimodal and digital forms.

English as an Additional Language/Dialect ATAR - ATELD

2022 Course cost \$110 per year

The EAL/D courses are designed for students who speak another language or dialect as their first or 'home' language. EAL/D focuses on development of the competent use of Standard Australian English (SAE) in a range of contexts. The EAL/D ATAR course develops academic English skills to prepare students for tertiary study.

English as an Additional Language/Dialect General - GTELD

2022 Course cost \$90 per year

The EAL/D courses are designed for students who speak another language or dialect as their first or 'home' language. EAL/D focuses on the development of the competent use of Standard Australian English (SAE) in a range of contexts. The EAL/D General course prepares students for a range of post-secondary destinations in further education, training and the workplace.

English as an Additional Language/Dialect Foundation – FTELD

2022 Course cost \$90 per year

The EAL/D Foundation course is designed for students who speak another language or dialect as their first or 'home' language and who have not demonstrated the literacy standard in the OLNA. EAL/D focuses on the mechanics of Standard Australian English (SAE) and its use in the community, the workplace or in further education or training. Practical, relevant tasks

delivered through a range of engaging contexts teach students to become effective communicators, code switching between languages or dialects successfully.

Enrolment criteria for English as an Additional Language/Dialect

If you do not speak Standard Australian English as your home language or are profoundly deaf and have had limited schooling in English or a limited period of residence in a country where English is not widely used, you may be eligible to enrol in EAL/D.

There is a form that needs to be completed in Year 11 to ensure you are permitted to enrol in EAL/D in Year 12. It is your responsibility to ensure the form is fully and accurately completed before it is submitted. The application information, stating the deadlines for submission, is available on the Authority website [Information for parents of EALD students applying online for eligibility.DOCX \(scsa.wa.edu.au\)](https://www.scsa.wa.edu.au/information-for-parents-of-eald-students-applying-online-for-eligibility)

HEALTH AND PHYSICAL EDUCATION

Health Studies *General* - GTHEA

2022 Course cost \$115 per year

In this General course, students explore health as a dynamic quality of life. They will consider the way in which beliefs and attitudes influence health decisions and learn how to plan and take action that will promote their own health and the health of others. They examine the impact of social and environmental factors on health and use inquiry skills to investigate and respond to relevant issues. The course also provides students with opportunities to develop skills that will enable them to pursue careers in health promotion, research or community health care.

HUMANITIES AND SOCIAL SCIENCE

Career and Enterprise *General* - GTCAE

2022 Course cost \$100 per year

Career education involves learning to manage and take responsibility for personal career development. The Career and Enterprise General course involves recognising one's individual skills and talents and using this understanding to assist in gaining and keeping work. The course develops a range of work skills and an understanding of the nature of work. Key components of the course include: the development of an understanding of different personality types and their link to career choices; entrepreneurial behaviours; learning to learn; and the exploration of social, cultural and environmental issues that affect work, workplaces and careers.

Career and Enterprise *Foundation* - FTCAE

2022 Course cost \$100 per year

Career education involves learning to manage and take responsibility for personal career development. This course is for students who have not demonstrated the literacy standard in the OLNA. The Career and Enterprise Foundation course involves recognising one's individual skills and talents, and using this understanding to assist in gaining and keeping work. The

development of a range of work skills and an understanding of the nature of work are significant aspects of this course. Literacy and numeracy enriching strategies are heavily embedded in the Career and Enterprise Foundation course.

Modern History *ATAR - ATHIM*

2022 Course cost \$100 per year

Studying the Modern History ATAR course enables students to become critical thinkers and helps inform their judgements and actions in a rapidly changing world. Students are exposed to a variety of historical sources, including government papers, extracts from newspapers, letters, diaries, photographs, cartoons, paintings, graphs and secondary sources, in order to determine the cause and effect, and the motives and forces influencing people and events. Through the process of historical inquiry, students are encouraged to question and evaluate historical sources; identify various representations and versions of history; use evidence to formulate and support their own interpretations; and communicate their findings in a variety of ways.

MATHEMATICS

Mathematics Applications *ATAR - ATMAA*

2022 Course cost \$80 per year

This course focuses on the use of mathematics to solve problems in contexts that involve financial modelling, geometric and trigonometric analysis, graphical and network analysis, and growth and decay in sequences. It also provides opportunities for students to develop systematic strategies based on the statistical investigation process for answering statistical questions that involve analysing univariate and bivariate data, including time-series data. The Mathematics Applications ATAR course is designed for students who want to extend their mathematical skills beyond Year 10 level, but whose future studies or employment pathways do not require knowledge of calculus. The course is designed for students who have a wide range of educational and employment aspirations, including continuing their studies at university or TAFE.

Mathematics Essential *General - GTMAE*

2022 Course cost \$80 per year

The Mathematics Essential General course focuses on using mathematics effectively, efficiently and critically to make informed decisions. It provides students with the mathematical knowledge, skills and understanding to solve problems in real contexts for a range of workplace, personal, further learning and community settings. This course provides the opportunity for students to prepare for post-school options of employment and further training.

Mathematics *Foundations - FTMAT*

2022 Course cost \$80 per year

The Mathematics Foundation course focuses on building the capacity, confidence and disposition to use mathematics to meet the numeracy standard for the WACE. This course is for students who have not demonstrated the numeracy standard in the OLN. It provides students with the knowledge, skills and understanding to solve problems across a range of contexts including personal, community and workplace/employment. This course provides the opportunity for students to prepare for post-school options of employment and further training.

SCIENCE

Chemistry ATAR - ATCHE

2022 Course cost \$100 per year

The Chemistry ATAR course equips students with the knowledge and understanding to make the most of opportunities to investigate properties and reactions of materials. Theories and models are used to describe, explain and make predictions about chemical systems, structures and properties. Students recognise hazards and make informed, balanced decisions about chemical use and sustainable resource management. Investigations and laboratory activities develop an appreciation of the need for precision, critical analysis and informed decision making. This course prepares students to be responsible and efficient users of specialised chemical products and processes at home or in the workplace. It also enables students to relate chemistry to other sciences including; biology, geology, medicine, molecular biology and agriculture. This unit develops a strong foundation for further study in the sciences.

Chemistry General - GTCHE

2022 Course cost \$120 per year

The Chemistry General course provides students with the opportunity to develop their understanding of the chemistry of materials encountered in their lives and everyday chemical reactions. Students apply chemical language by using symbols and formulae for common substances. As students explore the chemistry of a range of materials, including crude oil, vegetable oils, biofuels and polymers, they learn about the role of chemistry in contributing to a sustainable future and in assisting in the protection of the natural environment. An appreciation of the experimental nature of chemistry is developed through extensive laboratory activities.

Human Biology ATAR - ATHBY

2022 Course cost \$100 per year

The Human Biology ATAR course gives students a chance to explore what it is to be human, how the human body works, the origins of human variation, inheritance in humans, the evolution of the human species and population genetics. Through their investigations, students research new discoveries that increase our understanding of human dysfunction, treatments and preventative measures. Practical tasks are an integral part of this course and develop a range of laboratory skills; for example, biotechnology techniques. Students learn to evaluate risks and benefits to make informed decisions about lifestyle and health topics, such as diet, alternative medical treatments, use of chemical substances and the manipulation of fertility.

Human Biology General - GTHBY

2022 Course cost \$120 per year

In this practical based General course, the focus is on understanding how the body systems maintain and reproduce life. The course content relates directly and indirectly to many different occupations, such as social work, medical and paramedical fields, food and hospitality, childcare, sport, science and health education. The course is designed to help students make informed choices as responsible citizens in society. There is a focus on the characteristics and support of life, and the role the respiratory, digestive, circulatory, urinary and reproductive systems. From the very first moments through to the birth of a baby are explored. Throughout, students will conduct Science inquiries. A wide range of practical, hands-on activities with a focus on discovery learning, enriched with relevant excursions, will be used to build knowledge.

Year 12 Course Selection Handbook 2022

North Lake
Senior
Campus

Integrated Science *General* - GTISC

2022 Course cost \$120 per year

The Integrated Science General course enables students to investigate science issues in the context of the world around them. It encourages students to develop their scientific skills of curiosity, observation, collection and analysis of evidence, in a range of contexts. The multidisciplinary approach, including aspects of biology, chemistry, geology and physics, further encourages students to be curious about the world around them and assume a balanced view of the benefits and challenges presented by science and technology. Students conduct practical investigations that encourage them to apply what they have learnt in class to real-world situations and systems.

Psychology *General* - GTPSY

2022 Course cost \$100 per year

In the Psychology General course students will be introduced to psychological knowledge which supports an understanding of the way individuals function in groups. Students learn about well-known psychological models and theories, and the methods used to conduct scientific investigations in the discipline of psychology. Acquiring this foundation of scientific method and critical thinking is a valuable skill which students can apply throughout their study, work and everyday lives.

TECHNOLOGIES

Applied Information and Technology *General* - GTAIT

2022 Course cost \$65 per year

The Applied Information Technology General course provides students with the knowledge and skills to use a range of computer hardware and software to create, manipulate and communicate information in an effective, responsible and informed manner. Students develop an understanding of computer systems; the management of data; and the use of a variety of software applications to investigate, design, construct and evaluate digital products and digital solutions. The course offers pathways to further studies and a range of technology-based careers and a set of skills that equip students for the 21st century and give them an appreciation of the impact of information technology on society.

Building and Construction *General* - GTBCN

2022 Course cost \$240 per year

The Building and Construction General course encompasses the skills and applications of many of the trades and professions in the construction industry. Students have the opportunity to develop and practise skills that contribute to creating a physical environment, while acquiring an understanding of the need for sustainability, and an awareness of community and environmental responsibilities. Students will learn and practise building processes and technologies, including principles of design, planning and management.

Year 12 Course Selection Handbook 2022

North Lake
Senior
Campus

Design - Graphics *General* - GTDESG

2022 Course cost \$90 per year

The Design Graphics course aims to facilitate a deep and rich understanding of the role of design and the Graphic Designer in the modern world. We look at the role of design and how ideas, values, beliefs, attitudes and information are effectively communicated to audiences through graphic design, in both the print and digital form. Students will develop skills and processes for current and future industry and employment markets in the field of Graphic Design. Students are equipped with the knowledge and skills to understand design principles and processes, analyse problems and devise innovative strategies through projects. Students will have access to industry-standard design suites and art studio facilities.

Food Science and Technology *General* – GTFST

2022 Course cost \$180 per year

The Food Science and Technology General course provides opportunities for students to explore and develop food-related interests and skills. Food impacts every aspect of daily life and is essential for maintaining overall health and wellbeing. Students organise, implement and manage production processes in a range of food environments and understand systems that regulate food availability, safety and quality. Knowledge of the sensory, physical, chemical and functional properties of food is applied in practical situations. Students investigate the food supply chain and value-adding techniques applied to food to meet consumer and producer requirements. Principles of dietary planning, adapting recipes and processing techniques are considered for specific nutritional needs of demographic groups. Occupational safety and health requirements, safe food handling practices and a variety of processing techniques are implemented to produce safe, quality food products. This course may enhance employability and career opportunities in areas that include nutrition, health, food and beverage manufacturing, food processing, community services, hospitality and retail.

Materials Design and Technology - Metal *General* - GTMDTM

2022 Course cost \$240 per year

Students interact with a variety of metal items and products that have been designed to meet certain needs. Students are introduced to the fundamentals of design. They learn to communicate various aspects of the technology process by constructing what they design. Throughout the process, students learn about the origins, classifications, properties and suitability for purpose of the materials they are using, and are introduced to a range of production equipment and techniques. They develop materials manipulation skills and production management strategies, and are given the opportunity to realise their design ideas through the production of their design project. They work within a defined environment and learn to use a variety of relevant technologies safely and effectively.

Materials Design and Technology - Wood *General* - GTMDTW

2022 Course cost \$240 per year

Students interact with a variety of wood items and products that have been designed to meet certain needs. Students are introduced to the fundamentals of design. They learn to communicate various aspects of the technology process by constructing what they design. Throughout the process, students learn about the origins, classifications, properties and suitability for purpose of the materials they are using and are introduced to a range of production equipment and techniques. They develop materials manipulation skills and production management strategies and are given the opportunity to realise their design ideas

through the production of their design project. They work within a defined environment and learn to use a variety of relevant technologies safely and effectively.

ENDORSED PROGRAMS

Authority Developed Workplace Learning - ADWPL

2022 Course cost \$90 per year

Workplace Learning is an Authority-developed endorsed programme that is managed by individual schools and open to students in Years 11 and 12. To complete this endorsed programme, a student works in one or more real workplace(s) to develop a set of transferable workplace skills. The student must record the number of hours completed and the tasks undertaken in the workplace in the Authority's *Workplace Learning Logbook*. The student must also provide evidence of his/her knowledge and understanding of the workplace skills by completing the Authority's *Workplace Learning Skills Journal* after every 55 hours completed in the workplace. Unit equivalence is allocated based on 1-unit equivalent for every 55 hours completed in the workplace, to a maximum of 4 units. The total number of hours completed in the workplace is reported on the student's WASSA. Success in ADWPL may contribute significantly to a student's successful entry to a Training WA college, full-time employment and traineeships/apprenticeships.

Curtin UniReady

2022 Course cost \$520 per year

Curtin University

The Curtin UniReady Enabling Program is an alternate entry to university pathway run by Curtin University. It provides a pathway for students into selected courses at Curtin University. The UniReady Enabling Program is usually only available to students directly through Curtin University, however, NLSC and Curtin University have entered into a partnership that allows us to deliver the UniReady in Schools Program to Year 12 students on campus at North Lake. If completed successfully, it will provide students with a notional ATAR of 70 and English competency (Curtin's minimum entry requirements for undergraduate courses). Students will then be eligible to apply for selected Curtin University undergraduate courses. Details of these university courses can be accessed on the Curtin University website.

<https://study.curtin.edu.au/applying/pathways/uniready-enabling-program/>

The UniReady in Schools Program has been approved as an Endorsed Program. This means it will contribute to a student's WACE, as well as providing entry to Curtin University. Students complete four units. Each unit is equivalent to a one semester ATAR/General course. Students will complete two units in Semester One, and two units in Semester Two.

The units offered at North Lake are;

- Fundamentals of Academic Writing
- Foundations of Communication
- Introduction to Humanities
- Introduction to Commerce.

The UniReady Program is NOT intended as a replacement for ATAR, or for students who will achieve an ATAR above the minimum (70).

However it is suitable for students who:

- have not been at school for a while, are mature age or are returning to year 12 to for the purpose of gaining university entry
- may not get an ATAR that gives them university entry

- are studying General courses, but want to go to university
- are achieving B's in General courses, or C's in ATAR courses
- would benefit from additional 'university-readiness' skills.

The UniReady in Schools program is suited to students who are; dedicated and hardworking, possess independent learning skills, self-motivated, are resilient and can cope in times of adversity. UniReady students also require sound literacy skills and have achieved success in year 11 English (ATAR or General). Students must also be able to listen and act upon teacher feedback to improve their learning. This course is also suited to students who perform well in class assessments but may not do well under exam pressure.

Developing Social Skills (for the Workplace) - ENDPRO

2022 course cost \$50 includes Employment Advantage

This program is designed to develop personal insight and social confidence. The Developing Social Skills program introduces practical social skills to young people 13 to 17. The learning process is constructed in ways that encourages the participant to question their thinking and their behaviours, and how these might benefit them - or not. This program aims to develop personal insight and general confidence, with the purpose of enabling participants to move easily into, and within, groups. Using animation has increased its learning appeal to a wider variety of learning styles and needs. The learning platform is easy to navigate and the activities and exercises are fun. More importantly this program provides clear reasons and benefits as to why social skills are so important to each and every one of us.

The Employment Advantage

This program teaches young people how to find work and thrive in the job market. The program is contextual, meaning it is delivered in a specific order of learning, so students gradually develop an all-round knowledge of what to expect when looking for work. It also develops an understanding of how to optimise opportunities for success in the job market.

VOCATIONAL EDUCATION AND TRAINING QUALIFICATION OFFERINGS

North Lake Senior Campus provides a broad range of Certificate courses in partnership with Registered Training Organisations (RTOs). All qualifications are nationally recognised. RTOs are licensed under the Training Accreditation Council (TAC) or the Australian Skills Quality Authority (ASQA) to deliver and assess these qualifications. They will be advised of the students enrolled in these courses in February 2020. A certificate or statement of attainment will be issued by the RTO to students who successfully complete all course requirements. Certificates are delivered to the school and then presented or posted to students.

Due to external auspicings and delivery costs charged to the campus, students will not be enrolled into Certificate courses until 50% of the certificate payment has been received, with the final payment required by the end of Term 1.

For further information, please phone or email **Sarah Hardman VET Coordinator**
08 93140444 sarah.hardman@education.wa.edu.au

52831WA Certificate IV in Preparation for Health and Nursing Studies

If you're interested in studying health science at university - then this is a great starting point for your career goals. As this course has been designed to give you a foundational knowledge of your first-year university subjects, you will be guided through science subjects like human biology, chemistry, and physics. You'll also be taught about diseases across the world, and use this knowledge to help identify human body imbalances through the use of case studies and scenarios. Finally, we add to your skill level by teaching you about communicating at the university level with skills such as referencing, improving study habits, and creating your university schedule.

BSBITU313	Design and produce text documents
BSBMED301	Interpret and apply medical terminology appropriately
PREAPU401A	Provide information on human anatomy and physiology
PREASU403A	Apply academic skills
PREMHA404A	Use mathematics in a nursing and health context
PREMHS402A	Provide information on the fundamental principles of microbiology used in health settings
PREPHC405A	Use fundamentals of physics and chemistry in a health context

Prerequisites

C Grade in Year 10 Maths, Science and English

OLNA achieved

Delivery 2 days per week over 1 year

Must complete Registered Training Organisations EOI Form

Further study opportunities:

- Bachelor of Medical Science
- Bachelor of Sports Science
- Bachelor of Nursing*
- Bachelor of Psychology
- Bachelor of Social Work
- HLT54115 Diploma of Nursing,

Cost: \$860

Certificate course offered by North Lake Senior Campus in partnership with Health Science Hub RTO Code 52806

52841WA Certificate II in Introduction to Aged Care

This qualification reflects the role of support workers who follow an individualised care plan to provide personal targeted care to clients in a residential facility. Care workers' duties include:

- Carrying out activities to maintain an individuals' well-being through personal care and/or general activities of daily living
- Carrying out tasks related to an individualised client care plan
- Reporting directly to a supervisor

Prerequisites

Over 18 Years, obtain a WA Police Clearance, receive a flu vaccine

Code	Competency
CHCCCS011	Meet personal support needs
CHCCCS015	Provide individualised support
CHCCOM005	Communicate and work in health or community services
CHCDIV001	Work with diverse people
HLTAID002	Provide basic emergency life support
HLTINF001	Comply with infection prevention and control policies and procedures
HLTWHS001	Participate in workplace health and safety
HLTWHS005	Conduct manual tasks safely

This qualification is delivered by Amana Living trainers at North Lake Senior Campus with some workshops delivered at the Rivervale Training facility.

Amana Training will organise **minimum 80 hours work placement**.

Delivery 2 days per week over 3 terms

Further Study Options

CHC33015 Certificate III Individual Support

CHC32015 Certificate III Community Services

Cost: \$300

Amana Living Incorporated RTO Code 0609

BSB20120 Certificate II Workplace Skills

This qualification reflects the role of individuals in a variety of junior administrative positions who perform a range of mainly routine tasks, using limited practical skills and fundamental operational knowledge in a defined context.

When you complete the Certificate II in Workplace Skills you'll have the skills to open the door in a clerical or administrative role in a broad range of workplaces. You will gain a solid grounding in general office administration, including word processing, spreadsheets, workplace health and safety, and workplace communication.
